Outline

- What is Squeryl?
- Why do I need Squeryl?
- How do I use Squeryl?

What is Squeryl?

“A Scala ORM and DSL for talking with Databases with minimum verbosity and maximum type safety”

— squeryl.org

Why do I need Squeryl?

- SQL — “SELECT * FROM PRUDUCTS”
- HQL — “select p from Prudoct p”
- Squeryl — `from(pruducts)(p => select(p))`

How do I use Squeryl?

- A simple query
- Plugging it in
- defining your model
- transactions
- combining queries
